

Membership Criteria

Eligibility

CES welcomes global supply chain providers who share the common goal of advancing an integrated effort to protect the environment and the wellbeing of people, planet and profit. CES is the link for those who share this green mindset for commerce within the framework of the environmental process to help secure green tomorrow for this and future generations.

Requirements

A. Adhere to the Membership Compliance Program instituted by the Board of Directors, which includes an annual CES site(s) audit of the member corporation's environmental practices, tools, and improvements.

B. Become active participants in the CES B2B networking program designed to help ensure that like-thinking providers are the members' preferred choice when contracting for services.

C. Commit to an annual environmental process self-assessment to determine what the member's company needs to keep doing, stop doing, and start doing to position or maintain the company, its employees, and its transportation fleet as a certified **Enviro 360®** partner.

D. Respect, honor and adhere to not only the established Intellectual Property laws and protections enforced by the European Patent Office (EPO), the Japan Patent Office (JPO), the United States Patent and Trademark Office (USPTO), and the World Intellectual Property Organization (WIPO), but also to the patented - and unpatented - innovation and creativity of all inventors in all business dealings within the supply chain.

E. Actively work to help grow the CES membership.

F. Agree to allow CES to use your company's logo in marketing materials and media relations to help establish the strength of the Council and its impact on a sustainable supply chain.
